Cyprus · available for freelance

Computer Engineering at the University of Nicosia, after NTUA. I ship embedded systems and the full-stack apps around them, write the decisions down, and test what matters. Open to freelance work in embedded, full-stack, or the messy bit in between.

EXPERIENCE

Sep 2026 – now
Digital Governor, part-time · WisePrint, Nicosia
Software, firmware and design across WisePrint and Wiseshop. The print shop's pricing engine, job board and press queue run at the counter: 45 versions, 2,521 tests, self-updating with nightly off-site backups.

Jul – Aug 2026
Electrical Engineering Intern · SignalGeneriX, Limassol · ΙΔΕΚ scholarship
RF assembly and characterisation on a VNA and spectrum analyser, and SCPI instrument control. Built Augur, a bring-up toolkit for a GNSS-guided relay controller, with NMEA decoding and a geofence on the module itself.

Jul – Aug 2025
Electrical Engineering Intern · SignalGeneriX, Limassol
Test plans for an AI edge board across seven interfaces (Ethernet, RS-485, CAN, USB, CSI, GPIO, PCIe); verification automated in Linux, Bash and Python.

Jul – Oct 2024
Software Engineering Intern · PHOEBE Research & Innovation
A web app that ranks fuel stations by official price and distance: API integration, responsive UI, developer documentation.

2021 – 2022
Leadership role · Cyprus National Guard
Led a team of 10 through daily operations; honorary promotion for ethics and leadership.

SELECTED WORK

All solo. Case studies and interactive demos at nikolasneofytou.com; private repos are walked through on request.

Dec 2025 – now
Cinna · real-time transit for Cyprus
A Flutter app over Django REST and PostGIS that ingests the national GTFS-RT feed every 15 s; Stripe tickets and Apple Wallet passes are built and stay off until Cinna is licensed to issue them. The backend is in production and the iOS app is on TestFlight, with 1,400+ tests and 15 ADRs.
Flutter · Riverpod · Django REST · PostGIS · Celery · GTFS-RT

Apr – Oct 2026
Ludi · five-a-side pitch marketplace ludi.football
A player app, an owner dashboard and a lobby TV on one Postgres. Double-booking is impossible by constraint, row-level security is covered by 426 pgTAP tests, and Stripe Connect payments are built end to end, in test mode. In beta since August 2026.
Expo · Next.js · Supabase · PostGIS · Stripe Connect

May 2026 – now
Aristophanes · a platform for amateur theatre
Each production is its own space, with seven roles, a call board, calendar, wardrobe and box office (Stripe in test mode); row-level security guards every table. 61 ADRs, 829 tests; a theatre company's cast took it up in June 2026.
Flutter · Supabase · Postgres RLS · ports & adapters · Stripe

Aug 2026
Ρίζα · free Modern Greek dictionary (CC BY-SA content) plutarch-five.vercel.app
94,509 headwords with accent-insensitive search that resolves inflected forms to their entry. Live since Aug 2026, built in three days, 104 tests.
Next.js · TypeScript · PostgreSQL · pg_trgm

Also: Aedile Table B, communal-fee shares under Cyprus' Table B formula (live) · booking and intake for a solo psychologist (in use) · Fons, Virgil and Γράκχοι (TestFlight).

EDUCATION

2022 – now
Computer Engineering · University of Nicosia, since 2026
Before that, Electrical & Computer Engineering at NTUA, 2022 – 2026: DSP, control-systems design, microcomputer systems, operating systems, VLSI.

2014 – 2020
High School Diploma · Pascal English School · GPA 19.8/20 (2nd of 80) · A-Levels: Physics A, Mathematics A, Greek A*

SKILLS

Embedded	STM32 · AVR · FPGA · ESP32 · Jetson Orin Nano · Altium · SCPI · NMEA/GNSS · VNA, oscilloscope, logic analyser
Control	PID · root locus · Bode/Nyquist · state-space · observers · LQR
Code	C · C++ · Python · TypeScript · Dart · Java · MATLAB/Simulink · Bash
Full-stack	Flutter · Expo · Next.js · React · Django REST · HTMX · PostgreSQL/PostGIS · Supabase · Redis · Stripe · Docker
Languages	Greek (native) · English (IELTS 8.0/9)
